

THE FOUR FEARS & FREEDOMS OF FREIGHT AGENTS

IN THE WORLD OF SPORTS, being a free agent provides many opportunities for a successful athlete. More freedom, higher pay, and greater control in choosing one's destiny are often the result.

The same opportunities and results occur when seasoned and successful freight agents are respected for their vital role in the business.

Here are 4 COMMON FEARS of freight agents, and 4 UNIQUE FREEDOMS at Freight Tec, that make a freight agent feel like a free agent:

“ As an agent, I’m plagued with these

FEARS

“ As an agent, I feel like I’m competing to keep the business I’ve already won. I feel like I’m rolling the dice with my future.

“ Is the company’s internal brokerage going to steal my clients? I could lose what I’ve been building for years.

“ Am I being supported or hijacked for my clients?

“ How do I run a successful business when I don’t have the full support of the company?

“ At Freight Tec, I enjoy these

FREEDOMS

“ Freight Tec has guaranteed, in writing, they will never bring my clients “in-house.” I have no fear of internal competition because they don’t even have an “in-house” brokerage department.

“ Freight Tec relies on my business as an agent as its only source of new business. With no internal brokerage, I know they have my back and will give me full support to run my business.

“ I have much more power and control to grow my business since I don’t have to worry about all the overhead costs, risks and back office logistics. I can be a very profitable agent with Freight Tec, without the risks or worries of being a brokerage business owner.

“ I have little to no liability and risk with Freight Tec behind me. I’m simply going to make more money without that stress.
